Welcome to the latest edition of the **Careers Network Newsletter**. This edition features updates from **local employers** and **training providers**, information about the **Skills Fair** and much more. Please **share** with colleagues.

Electrify your career

myenergi launches national training academy

myenergi, recently ranked as Britain's 9th fastest growing company in The Sunday Times Hundred 2022, has launched a dedicated education hub at its state-of-the-art eco headquarters in Stallingborough offering:

- apprenticeships
- internships
- postgraduate schemes

throughout all areas of the business, the 'myenergi academi' opened its doors to its first intake last autumn. It is designed for career changers or school, college and university leavers looking to kick start their career.

The apprenticeships and internships are available to all ages and across multiple departments to meet the needs of an ever-growing business. There are also plans underway to create a postgraduate scheme and announce even more apprenticeships in specialist areas. Applicants can expect to develop a wide range of business skills, including technical knowledge, ethics, leadership and management.

Jordan Brompton, co-founder and CMO at myenergi, commented: "myenergi is growing at an exceptional rate and, following the success of our internship programme, introducing an apprenticeship scheme seemed like the next logical step towards our goal of identifying the talented team members of tomorrow.

"We're passionate about the local area, so aiding its development, and that of the renewables sector, is so important to us. We're excited to get the programme underway and continue investing in our business."

Applications will open in January 2023, to find out more click <https://myenergi.com/myenergi-academi/> or contact Lauren Doyle, Work Based Learning Lead lauren.doyle@myenergi.com

Creative Careers event

On Tuesday 21st February a 'Creative Careers' event is being held at Grimsby Town Hall from 9am to 3pm which is open to all careers advisors in North East Lincolnshire.

The event will showcase local people that work in a range of creative industries and their pathways to those careers. We will also have course providers attending to find out about the range of creative courses that are available in our local area.

Please book on the link below.

Greater Lincolnshire Enterprise Adviser Network and Career Hub Update

Provider access legislation 2023

The updated provider access legislation (PAL) has now been enacted (came into force 5 January 2023).

It is a key mechanism to further help learners understand and take-up, not just apprenticeships, but wider technical education options such as T-Levels and Higher Technical Qualifications.

The updated provider access legislation (PAL) specifies schools must provide at least six encounters for all their students:

- Two encounters for pupils during the 'first key phase' (year 8 or 9) that are mandatory for all pupils to attend
- Two encounters for pupils during the 'second key phase' (year 10 or 11) that are mandatory for all pupils to attend
- Two encounters for pupils during the 'third key phase' (year 12 or 13) that are mandatory for the school to put on but optional for pupils to attend.

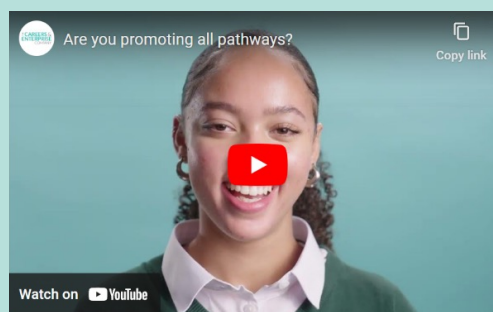

In the context of the provider access legislation, a provider is an organisation that offers approved technical education qualifications or their representative, for example an FE college or training provider.

- A provider, to whom access is given, must deliver an encounter that includes the following:
- Information about the provider and the approved technical education qualifications or apprenticeships that the provider offers
- Information about the careers to which those technical education qualifications or apprenticeships might lead
- A description of what learning or training with the provider is like
- Responses to questions from the pupils about the provider or approved technical education qualifications and apprenticeships.

Support with the full statutory guidance from DfE can be found [here](#).

Are you promoting all pathways with equity?

Everyone has a role to play in ensuring that young people, parents and carers are supported to develop the knowledge and understanding of all available routes at key transition points. Promoting all pathways enables young people to make informed and more confident decisions. This short video sparks a discussion as we ask ourselves: technical pathways, what comes to mind?

[Watch video](#)

At The Careers & Enterprise Company, we are keen to support schools and providers to meet and evidence this updated requirement meaningfully as part of wider progressive careers programmes. Please speak to your Enterprise Coordinator if you need any guidance or support.

Some useful resources to help you support students understand all pathways:

The SEND Local Offer Events and Training page

Getting the best support for children and young people with Special Educational Needs and Disabilities is an important focus for our borough.

There's lots of great training and events for professionals working with children and young people with SEND.

Specific areas include:

- Autism
- Early Years
- Sleep
- Anxiety
- EHCP's

You will also find events and training to share with local parent carers and children and young people that you support. They have told us 'schools are a key source of information'.

You can signpost them to training which has been recommended by others in their position on topics such as sleep, emotions, early years, and navigating support, plus events such as coffee mornings, inclusive activities, and engagement opportunities.

Find training for professionals- [NELC SEND Local Offer | Professionals Events and Training \(nelincs.gov.uk\)](#)

Humberside Police recruitment launching in March

2022 has been a really busy year for recruitment in Humberside Police. We have recruited in excess of 200 new police officers plus police staff, volunteers, specials and cadets.

Justin Robert and Carl Palmer are the two Positive Action officers for Humberside Police. It is our job to recruit officers and staff from the diverse communities that we serve. We go to careers event all over the East Riding, Hull and North East Lincolnshire areas and speak to hundreds of potential new recruits.

We can offer

- presentations to schools, colleges and universities in the region
- speak about hate crime, bullying and county lines drug dealing

March will see the opening of our latest recruitment campaign where we aim to recruit nearly 80 further officers. We will be travelling all over the area to promote Humberside Police and highlight the many varied and interesting jobs that we have on offer.

If you know anyone who is interested in a career in Humberside Police then please contact carl.palmer@humberside.police.uk or justin.robert@humberside.pnn.police.uk

or visit our website [Home | Humberside Police](#)

Opportunities with HETA

There has never been a better time for young people to pursue a career in engineering.

According to Engineering UK, 203,000 people with Level 3 and engineering skills will be needed every year to meet demand through to 2024.

This is a void that can only be filled by young, enthusiastic people with a willingness to learn and the current skills gap has forced the industry to identify key areas for improvement:

- To find the next generation of engineers, employers in the Yorkshire and Humber region are trusting HETA to deliver first-class training to ensure trainees are equipped with the skills, knowledge and behaviours they need to kickstart a rewarding, lifelong career in engineering.
- HETA has the experience required to ensure that the young people that choose HETA excel throughout their apprenticeship and beyond

- pathways leading up to and including a Level 6 Bachelor of Engineering qualification in partnership with Sheffield Hallam University

At HETA we want to maintain the momentum of our school engagement campaign throughout the remainder of the academic year and continue to inspire young people across the region and educate them on the unrivalled opportunities that exist within engineering.

To book a HETA visit to your school or college, please contact the Schools Engagement Team via email: careers@heta.co.uk

The NEW Humber and North Yorkshire Careers hub website has launched!

It's a one stop shop for everything health and care careers related across the Humber.

- Search the interactive career pathway to find career options
- Search and apply for jobs
- Search and apply for apprenticeships
- Prepare like a pro – useful guides for writing a CV and Interview Techniques
- Explore the education and training pathway to find the best route into the sector for you

www.hnycareershub.co.uk

To ensure that schools and colleges in the region are aware of the work of the partnership, workforce trends and resources available to inspire the next generation of the health and care workforce, we have refreshed our schools and colleges newsletter:

[Here is the January edition of the Humber and North Yorkshire Health and Care Partnership Careers Hub newsletter.](#)

Ørsted - introducing our new Community Engagement Officer

As Ørsted is the world leading renewable energy company and its largest base is right here in Grimsby, we are delighted to introduce our new Community Engagement Officer - Harriet Farmery, who joined the Ørsted team recently.

In the decade since it first came to the region, Ørsted has put Grimsby at the very heart of the global transition away from fossil fuels to green energy. On the East Coast of the UK, we have six wind farms. This includes Hornsea 2, which is just over 55 miles off the coast of Grimsby, became the world's largest operational offshore wind farm. This marked a tremendous milestone for the offshore wind industry in the UK – and globally.

With over 80% of our workforce living within an hour of Grimsby, we are powered by local people. These careers in STEM are great inspirations for young people to see how their local area is leading the way in climate change and a great opportunity on their doorstep for future careers.

We're proud to be able to showcase our work with our Visitor Centre in the heart of Grimsby Docks. The Centre is an interactive space where young people can learn about the hidden world of offshore wind and climate change and the wide range of jobs Ørsted provides.

We can also offer visits to local schools where we can deliver assemblies with our teams who volunteer to talk through their roles in tackling climate change. Each term, we have a certain number of slots available for schools to apply for.

For further information please contact Harriet.hafar@orsted.com

CATCH offer apprenticeship training in the following trades;

- Process Operations
- Mechanical
- Electrical
- Instrumentation
- Pipe Welder
- Plate Welder
- Pipefitter

Students can register their interest to find out more about apprenticeship opportunities at CATCH

Message from Hayley Gilham, YPSS Operational Manager (Employability):

Young People's Support Services (YPSS) Level 6 qualified Careers Advisers provide free impartial information advice and guidance to targeted students in key stage 4 across all academies in North East Lincolnshire and also attend some meetings for students in year 9 where possible.

We also offer additional purchased services such as careers guidance for students who fall outside our targeted service offer and single or 3 year destination tracking reports to assist academies with meeting responsibilities covered in the Careers Strategy and Gatsby Benchmarks.

YPSS hold the Matrix international standard for information advice and guidance services offering reassurance as to the quality of the information advice and guidance (IAG) given to young people.

For more information please contact YPSS.MIS@nelincs.gov.uk

We have been successfully accredited with the **matrix** Standard for delivering high quality information, advice, and guidance!
